I- AREA AND POPULATION

- 1.1 **A**rea and population are closely interlinked. The data of Area and Population is analysed on the indicators like density of population, number of females per 1000 males/sex ratio, work participation rate, urbanization process etc. As per the census figures of 2011, the area of J&K indicate that Jammu and Kashmir is the 6th major state amongst the States and Union Territories of the country with an area of 222236 sq. kms (including area under illegal occupation of Pakistan and China).
- 1.2 To ascertain the impact of public spending across different demographic and socio-economic strata and to make it vibrant and target oriented, the process of conducting a decadal population census in Jammu and Kashmir was initiated in 1873. Census operations adhering to the principles and instructions laid down by the Government of India were conducted between 1911 and 1941. The census operations were regularly conducted in 1961, 1971, 1981, 2001 and 2011, as a part of the All India Census with the exception of the years 1951 and 1991 when the conditions in the state were not conducive.
- 1.3 Prior to the year 1921, due to a number of famines and epidemics, the population of the state grew at a slow rate. After 1921, the population increased steadily, from 29.46 lakhs in 1941 to 32.54 lakhs in 1951. During 1961-71, the population of the state saw a jump of 10.56 lakhs, climbing from 35.61 lakhs in 1961 to 46.17 lakhs in 1971 and 59.87 lakhs in 1981.
- 1.4 As per the census figures of 2011, the population of the state stands at 125.41 lakhs (66.41 lakh males (52.95%) and 59.01 lakh females (47.05%). The decadal growth rate of population during 2001-2011 was 23.64%. The census figure of 2011 indicates the overall sex ratio of 889 females per thousand males.
- 1.5 Economic classification of population reveals that 34.47 percent of the population is a part of the workforce. The overall literacy rate is 67.16 percent (males 76.75% and females 56.43 %).
- 1.6 Based on the decadal population census, this chapter contains data regarding the area and population, sex ratio, population density, the number of villages and towns, population breakup by religion and caste, rural-urban breakup of population and the occupational classification of the workforce, amongst other things.
- 1.7 As per the census figures of 2011, the population of the UT of Jammu & Kashmir stands at 122.67 (64.84 lakh males (52.85%) and 57.83 lakh females (47.15%). The census figure of 2011 indicates the overall sex ratio of 892 females per thousand males.

III-CLIMATE

3.1 **T**he Regional Meteorological Centre at Srinagar provides details on temperature and rainfall. There are 12 designated stations maintained by the Meteorological Centre namely Srinagar, Pahalgam, Kukernag, Gulmarg, Qazikund, Kupwara, Jammu, Banihal, Kathua, Batote, Bhadarwah and Katra.

3.2 Definitions:

3.2.1 The "Actual Monthly" rainfall of the division for the year is the mean of the monthly rainfall of the available stations. The sum of actual monthly rainfall for the 12 months is the "actual annual" rainfall of the division for that year.

3.2.2 The monthly 'Normal Rainfall' of the division is the mean of "monthly rainfall" of the corresponding stations and annual normal rainfall is the sum of the rainfall for all the 12 months.

3.2.3 Rainfall received during previous 24 hours is recorded at 8:30 hrs. (IST) at the rain gauge each day. A day recording rainfall of at least one tenth (1/10) of an inch is considered to be a rainy day.

3.2.4 The maximum and minimum temperature is recorded at the observatories at 8:30 hrs and 17:30 hrs. (IST).

3.3 The chapter has a set of four tables presenting data on the following:

- a) Annual rainfall in Kashmir and Jammu divisions over the years;
- b) Time Series data on mean maximum and mean minimum temperature;
- c) Monthly mean relative humidity for Srinagar and Jammu centers and
- d) District / month-wise rainfall.

IV-AGRICULTURE

- 4.1 **J**ammu and Kashmir is predominantly an agrarian economy. Nearly 70% population of the UT of Jammu and Kashmir is directly/indirectly dependent on the agricultural sector for its livelihood. Agricultural development is instrumental in enhancing farmers income and employment opportunities. It is imperative to adopt strategies aimed at increasing and diversifying production of crops.
- 4.2 This chapter covers the pattern of land utilization & operational holdings, area under different crops, distribution of fertilizers, production and yield rate of crops. The primary sources of agricultural statistics are the Agriculture Statistics Returns and the crop forecasts prepared by the Financial Commissioner, Revenue, J&K which is the nodal agency for collection, compilation of Agriculture Statistics in the State.
- 4.3 The concepts and definitions used are the same as prescribed by the Union Ministry of Agriculture & Farmers welfare.
- 4.4 Definitions:-
- 4.4.1 *Area according to village papers:* The reported area or the cadastral surveyed area i.e. the area for which data on land use classification is available. The estimates of the reported area are prepared by the village patwari and are different from the total geographical area of the state, as the Revenue Department does not maintain the record of the areas which are not fit for habitation. The reported area does not include the area maintained by the Forest Department.
- 4.4.2 *Forests:* Includes barren-land forests viz. the forests falling outside the forest area demarcated by the Forest Department for maintenance.
- 4.4.3 *Land put to non-agricultural uses:* Includes land occupied by buildings, rivers and canals, and land that is being used for purposes other than agriculture.
- 4.4.4 *Barren and un-cultural land:* This includes all barren and un-cultural land like mountains, desert etc. This category also includes land that cannot be brought under cultivation without an exorbitant investment.
- 4.4.5 *Permanent pastures and other grazing lands:* All grazing land, whether or not a permanent pasture or meadows and also includes common grazing

land in the village.

- 4.4.6 *Land under miscellaneous tree crops, groves etc.:* This constitutes the cultivable land which is not included in net area sown but is put to some agricultural uses. For example, land containing thatching grasses, bamboo bushes and other groves for fuel etc., but not included under 'Orchards' fall in this category.
- 4.4.7 *Cultural Waste Land:* This includes land that was not cultivated during the current year and during the last five years or more (in succession), regardless of whether it was taken up for cultivation at some point or not taken up at all. Such land may be fallow or may be covered with shrubs and jungles that have not been put to any use. The land may be assessed or unassessed and may be in isolated blocks or within cultivated holdings. Land that was once cultivated but has not been cultivated for five years in succession is included in this category after the completion of five years.
- 4.4.8 *Fallow land other than current fallows:* This includes all land that was taken up for cultivation earlier but has not been cultivated for a minimum period of one year and a maximum period of five years.
- 4.4.9 *Current fallows:* Cultivable areas kept fallow during the current agricultural year. Any seeding area in the current agricultural year that has not been cropped within the same year is also treated as current fallow.
- 4.4.10 *Net area sown:* This represents the total area sown with crops and orchards. Areas sown more than once in the same year are counted only once.
- 4.4.11 *Total cropped area:* Total cropped area represents the total area covered with crops i.e. the sum total of the area covered by all the individual crops. The areas sown with crops more than once during the same year are counted separately for each crop.
- 4.4.12 *Area sown more than once:* It includes the area on which crops are cultivated more than once during the agriculture year and is obtained by deducting the net area sown from the total cropped area.

IX-COOPERATIVES

- 9.1 **C**ooperative is an autonomous association of persons united voluntarily to meet their common economic, social, and cultural need and aspiration through a jointly-owned and democratically-controlled enterprise.
- 9.2 The guiding principle of cooperative commercial entities is "Each for all and all for each", with 'morality applied to business' being a key facet of the nature of cooperation. Cooperatives play a pivotal role in influencing the attitude of the general populace towards social and economic change and offer limitless opportunities for participation in economic activities.
- 9.3 Since 1951, the cooperative sector has grown leaps and bounds in terms of its size, operational scale and level of diversification. The cooperative department of the state has been actively engaged in the registration of cooperative societies undertaking various economic activities related to agriculture, dairy, poultry, housing, education, consumer business, banking, micro-lending, transport etc. The cooperative banks and credit societies have empowered farmers to use better agricultural inputs with the provision of short, medium and long term credit and in the procurement of surplus produce.
- 9.4 This chapter provides district-wise data of registered cooperative societies, membership status, loans advanced, amounts overdue and paid up share capital etc. of central co-operative banks and credit societies.

- 13.1 **T**he sustainability of the economy is dependent on availability of energy. An increase in demand for power is directly linked with the growth of the economy, modernization, industrialization, improvement in basic amenities and better quality of life. The UT of Jammu and Kashmir is endowed with significant hydel potential which, when exploited fully, will provide a strong impetus to the growth of its economy.
- 13.2 The Power Development Department has the mandate for the generation, transmission & distribution of electricity in the UT of J&K. The generation sector is looked after by J&K State Power Development Corporation Ltd. (JKPDCL) which was carved out of Power Development Department in 1995.
- 13.3 For making the power sector efficient and competitive, reforms in this sector have been carried out. The purchasing sector is looked after by CE (Trading), J&K Power Corporation Ltd. and distribution sector is looked after in Jammu region by CE (distribution) Jammu Power Development Corporation Ltd. and for Kashmir region by CE (distribution) Kashmir Power Development Corporation Ltd. Although progress has been made, but power shortage is still a problem in the UT of Jammu and Kashmir and has been a major constraint in the development of the industry.
- 13.4 This chapter presents data on Installed capacity of power, power generation, purchased, sold and revenue realized by the department. Further, Data on electrification of villages for the year 2021-22 is mentioned in the chapter.

XVI-IRRIGATION

- 16.1 **I**rrigation is a critical input which allows farmers to significantly reduce their dependence on erratic monsoon and obtain adequate production in both Kharif and Rabi seasons.
- 16.2 The major source of irrigation in the UT of Jammu and Kashmir is canal irrigation. Canals, which are locally called as Kuls, account for about 83% of the total irrigated area. The major area falls under command of canal irrigation. The office of the Financial Commissioner (Revenue) provides statistics on irrigation activities in the UT of Jammu and Kashmir.
- 16.3 This chapter contains data on crop wise distribution of net as well as gross irrigated area by source along with a district wise breakup of the same.

XX-FOREST

- 20.1 **T**he forests of UT of Jammu and Kashmir exhibit wide range of diversity from subtropical to temperate and alpine. Forests play a multi-dimensional role in preserving ecosystem, conservation of biodiversity, soil and catchment areas of the Himalayan rivers. Forests, being the largest land based resource, also play a pivotal role in supporting livelihoods of the local population of UT of Jammu and Kashmir.
- 20.2 The forest of UT of Jammu and Kashmir with an area of 20,194 square kilo meters constitutes (12066 sq km in Jammu Region, 8128 sq km in Kashmir Region) constitutes 47.81% of the effective geographical area in UT of J&K.
- 20.3 Definitions:
- **Coniferous Forests:** Coniferous forest, vegetation composed primarily of cone-bearing needle-leaved or scale-leaved evergreen trees like Pines, spruces, firs and larches etc found in areas that have long winters and moderate to high annual precipitation. Forests with minimum 80% of the area under coniferous tree are known as coniferous forests.
 - **Non-Coniferous Forests:** Non-coniferous trees have broad leaves, which may be very narrow rather than needles or scales, can be deciduous or evergreen depending on the tree's native region (i.e. temperate vs. tropical) like oak, beech, birch, poplar, walnut, cherry, apple and olive etc. Non-Coniferous Forests are forests where at least 80% of the total area is covered by non-coniferous tree species.
 - **Reserved Forests:** Reserved Forests are the most restricted forests and are constituted by the State Govt. on any forest land. Forests which are permanently dedicated to the production of timber or for some other specific purpose. Grazing and cultivation is rarely allowed in such forest areas.
 - The chapter presents forests area and revenue realized from out turn of major and minor forest produce

XXI-SOCIAL WELFARE

21.1 Welfare measures for under-privileged and vulnerable sections of the society are essential for ensuring growth and justice. The Social Welfare Department has the responsibility to safeguard the educational and economic interests of the weaker sections and in particular of the Scheduled Castes and Scheduled Tribes. In conformation with these objectives, the Jammu and Kashmir Government is making sustained efforts to remove the socio-economic disparities against the weaker section in general and backward classes in particular

21.2 This chapter caters the information about the operational mechanism available at various levels in Jammu and Kashmir along with steps taken for the development of weaker sections including children and women. Details of Incentives by way of scholarship to the pre and post-matric students of backward classes, data on financial assistance under Pradhan Mantri Matru Vandana Yojana (PMMVY) and Ladli Beti Scheme under the purview of Social Welfare Department are also contained in the chapter. Besides, data on the number of Integrated Child Development Scheme (ICDS) Projects and Anganwari Centers available in Jammu and Kashmir and their district composition for the year 2021-22 are also reflected in the chapter.
